Two Commerce Square, 2001 Market Street, Suite 2800, Philadelphia, PA 19103 // Toll free 888-291-5676

Agriculture / Horticulture

Panitch Schwarze Belisario & Nadel LLP serves the agricultural and horticultural industries, helping businesses in numerous aspects of the industries safeguard and enforce their intellectual property. We take the time to get to know our clients and their businesses, which allows us to determine what IP strategies to employ to help them reach their business goals. This allows us to better determine what should be patented and trademarked and what should be maintained as trade secrets, as well as what type of licensing strategies to employ to best monetize their IP assets.

We assist clients in protecting both sexually and asexually reproduced novel plant varieties, as well as transgenic plants, both domestically and internationally, through plant and utility patents, PVP certificates, and PBR certificates. This includes protections for plants that are important food crops and fruits, ornamental plants, and hemp/cannabis plant varieties. We also assist in developing an appropriate brand strategy around those novel plant varieties, and in securing necessary trademark protections to effectuate that strategy. In addition to assisting in securing IP protection, we also assist in developing an effective licensing strategy to meet the business goals of the company, and can prepare and negotiate the licenses needed to put that strategy in place.

In addition to novel and transgenic plant varieties, we assist with securing intellectual property protections in a wide variety of other areas of the agricultural and horticultural industries, including:

- Aerators
- Agricultural Equipment
- Animal Feed
- Animal Management and Animal Feeding Practices
- Biopesticides
- Grass Collectors
- Lawn Mowers
- Leaf Blowers
- Overseeders
- Plant Growth Enhancers and Modifiers
- Seed Treatments
- Sod Cutters
- Tillers
- Tractors
