Megan Coyle, Ph.D. Scientific Advisor

Philadelphia: 215.965.1301 **F:** 215.965.1331 **E:** mcoyle@panitchlaw.com Dr. Megan Coyle is a scientific advisor specializing in pharmaceutical and biotechnology. She provides technical support and scientific expertise and assists in conducting searches and reviews for due diligence, patentability and freedom to operate analyses, as well as preparation, filing, and prosecution of patent applications.

Prior to joining Panitch Schwarze Belisario & Nadel LLP, Dr. Coyle was a postdoctoral researcher at the University of Pennsylvania where she studied the role of immune pathways in the progression of metabolic disease. During her graduate work at the University of Pennsylvania, she utilized genetic, molecular biology, and histochemical techniques to study the transcriptional regulation of immune pathways in adipose tissue. Dr. Coyle has authored numerous research articles in such journals as *EMBO Journal* and *Proceedings of the National Academy of Sciences*. She has also presented her research at international conferences.

Dr. Coyle received her B.S., *cum laude*, in Biological Sciences from the University of Delaware and her Ph.D. in Cell and Molecular Biology from the University of Pennsylvania with a focus in cell biology, physiology, and metabolism.
