Patent Agent

Position: Patent Agent (Biological Science)

Location: Philadelphia, PA 19103 or Wilmington, DE 19803

GENERAL SUMMARY

The Patent Agent will provide technical support and scientific expertise to assist with all aspects of patent protection, both US and foreign, focusing on the pharmaceutical and biotechnical arts. The Patent Agent will assist in the preparation, filing and prosecution of patent applications as well as conducting searches and reviews for due diligence, patentability and freedom to operate analyses.

QUALIFICATIONS:

- Ph.D. in Biological Sciences, Molecular Biology, Genetics or Microbiology
- 4+ years of research experience in one or more of molecular biology, genetics, cell biology and microbiology
- 5+ years of patent experience
- USPTO Registration
- Superior technical, verbal and written communication skills
- Strong analytical and problem-solving abilities
- Ability to work effectively in a fast-paced environment, prioritize and resolve conflicting workload assignments, and adapt to changing conditions

We are continuously seeking qualified applicants to join our dynamic team of attorneys and will consider those with various experience levels for entry-level and lateral positions. Please submit resume and transcripts to careers@panitchlaw.com or by mail to:
